

Wayne 70 Gas Pump Replica

This pump was built during the 1940's and features tapered sides and three illuminated ad glass panels as well as an illuminated globe assembly. The art-deco appearance gives it a classy, majestic look. Fiberglass body with high gloss gel-coat finish, decorative hose, nozzle, reset crank, sight-glass and spinner detail bring this pump to life. Enhanced with a gently illuminated computer face, this pump is a signature piece for your home, office or showroom.
